

IN THE DRAWINGS:

The attached informal drawing show annotated corrections for FIGS. 3, 4, and 6. In FIG. 3, reference numeral 58 at the top of the page has been changed to 61 to eliminate redundancy with previously used reference numerals. In FIG. 4, reference numeral 79 has been added with the appropriate lead line. Finally, FIG. 6 has been modified, as requested by the Examiner, by labeling element 216 as "silicon wafer," and labeling element 218 as "circuitry." The attached formal drawings for FIGS. 1-6 replace the informal drawings filed on June 1, 2000, and include the changes to FIGS. 3, 4, and 6. (See attached Annotated Sheet(s) Showing Changes and attached Formal Drawings including the changes.)
